SUSTAINABLE MATERIAL

Richpack's paper-based products are sourced from responsibly managed forests

FSC Certification

The recycled content of materials used in manufacturing promotes a circular economy.

GRS Certification

There is a plan-b, but there is ***no planet-b.***

Sustainable Solutions

FSC-CERTIFICATED MATERIALS

Use FSC-certificated materials paper and cardboard which has **100% recycled** for options. we avoid glued plastic such as windows in our constructions.

RECYCLED MATERIALS

GRS-Certificated Plastic Shell can be used again and again, reducing waste and minimizing environmental impact. We aim to use only one single type when we develop plastic packaging.

NATURAL FIBERS

Except FSC-certificated paper. Natural fibres, such as cotton and jute, are another excellent choice for **sustainable jewellery packaging**. These materials are biodegradable and provide a rustic, eco-friendly feel to the packaging.

FSC- CERTIFICATED CARDS

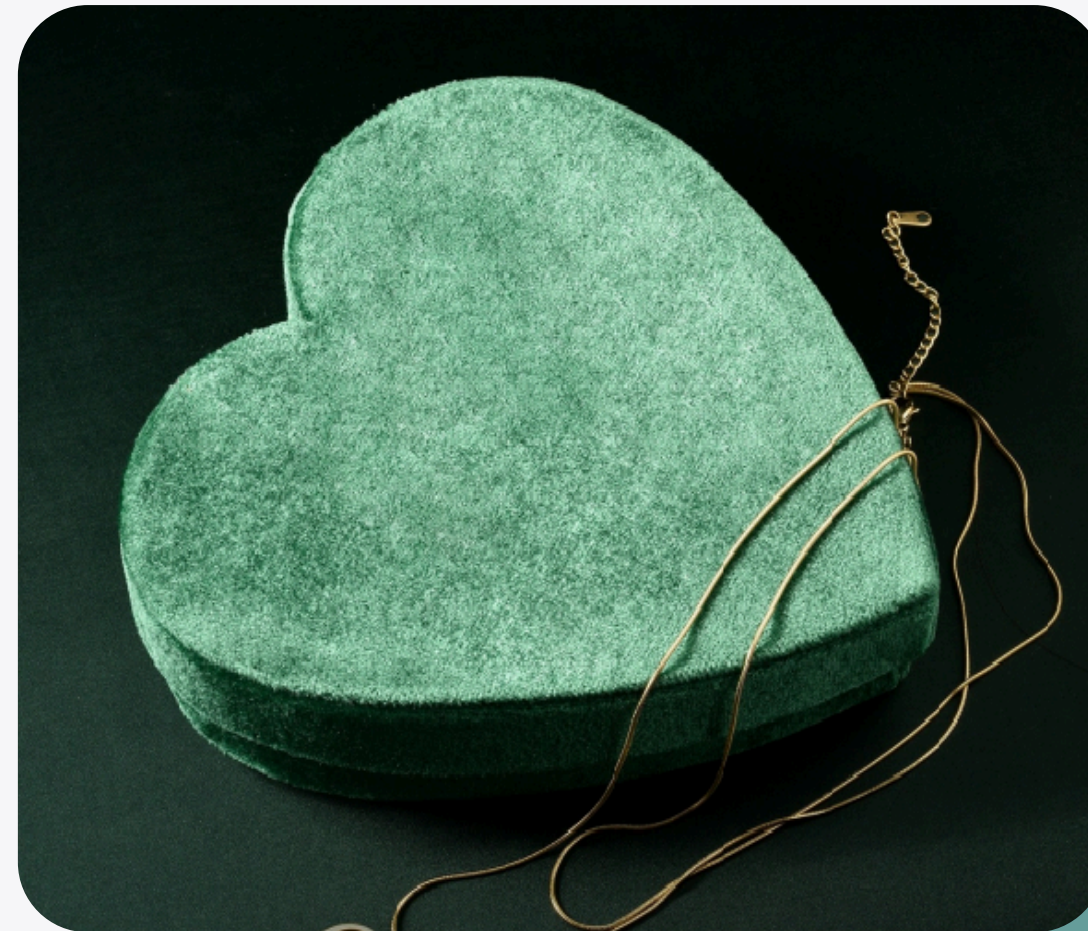

As part of the FSC certification, the wood use for the cards comes from forests that **preserve nature** and are **socially responsible**.

LUXURY PACKAGING
